

Certificate of Physical and Chemical Analysis

Product name: Pherobank *Cydia funebrana*

Pherobank product number: 50067

Type of formulation: Active compounds impregnated in natural rubber sleeve stopper

Name of producer: Pherobank BV

Country of origin: The Netherlands

Fabrication lot number: representative sample

Production date: January, 2016

Content:

Pheromone 0.47% p/p
Inert material 99.53% p/p

Physical description of the pheromone dispenser:

Red Natural rubber sleeves. Dimensions: 9.1 mm outside diameter, 18.8 mm total height.
Weight: 0.7 gram.

Packaging description:

Suitable

ID active compound(s):

1)	(Z)-8-Dodecen-1-yl acetate	CAS No: [16725-53-4]
2)	(Z)-8-tetradecen-1-yl acetate	CAS No: [14959-86-5]
3)	Tetradecen-1-yl acetate	CAS No: [34010-21-4]

Concentration of active ingredient found per pheromone dispenser:

SAMPLE	TEST	SPECIFICATIONS	TEST RESULTS
<i>Cydia funebrana</i> lure	pheromone content	3.3 mg MIN	3.3 mg
